BRIDGE EQUIPMENT & SERVICES

> Your Technical Partner, Anytime, Anywhere

Making our Services available across
250 Ports Worldwide

One Tech Services operates on a 24/7 basis, 365 days a year in order to provide our customers high quality equipment, spare parts and technology services anytime, anywhere.

ENGINEERING

One Tech's squad teams of mechanical engineers are available to tend to a variety of mechanical services, inclusive of main and auxiliary engine services, overhauls, endoscopic alignment, turbochargers repairs, welding, UTM, boiler and heat exchangers repairs.

COMMUNICATION

Crucial to safety, One Tech's engineers ensure that communication systems – from SatCom equipment and radio systems, to software solutions – are unfailing, and always running effectively.

ENVIRONMENTAL

Our Engineers are certified, well trained and experienced to install, calibrate and maintain the ODME, bilge alarms 15PPM, Oil Mist Detectors and Oil Water Separators (OWS), survey, repair and retrofit anodes, ICCP and ICAF systems. We also plan, design, install and commission BWTS.

NAVIGATION

We can provide turnkey solutions (equipment and installation) and we have spare parts available in most of our warehouses worldwide. Our services include maintenance & service for radars, gyrocompass, AIS, autopilots, echo sounders, speed logs, anemometers, GPS, ECDIS and e-charts.

SECURITY

We provide all Security Services and Surveys, installation of security equipment and maintenance of all the related systems on vessels such as EPIRBs, SARTs, Anti-piracy systems, VDRs, GMDSS, LRIT, BNWAS, SSAS, SBMAs.

ELECTRICAL

From thermographic inspections to Engine Monitoring and Control systems (EMC), power management system, switchboard and breaker systems, One Tech is able to design, implement and commission hardware and software for automation systems. Furthermore, we can supply all electrical parts and cables required to this end.

PROPULSION

We provide propulsion services such as bonding of the stern tube seals, bow thruster seals, liner alignment. These services can be provided afloat or during drydock.
