Partnering with only the best to offer Bespoke Customised Solutions & Top Quality Spares and Service

ONE OPPORTUNITY A WORLD OF POSSIBILITIES

Since its inception in 2008, DMS offers an **exhaustive range of marine spare parts** of unsurpassed quality such as separator spares, lubrication and fuel oil separators.

In addition, fulfilling the demand for Ballast Water Treatment Systems (**BWTS**), DMS has partnered with one of the world's most superior supplier, serving as their exclusive representative in the Cypriot market.

THESE ARE THE REASONS WHY TO CHOOSE US!

- 
- Employing sensitive and acute communication with our clients in ascertaining their exact needs, DMS is able to **curate and customise its services**, accordingly, ensuring **bespoke solutions** are cultivated to **productive and profitable ends**.
 - Our clients can anticipate nothing less than absolute **reliability, timely delivery, and competitive pricing**, facilitated by our esteemed team of personnel **keenly experienced** in their respective industries, fully abreast of any and all advancements, and available to our clients 24/7, 365 days a year.

OUR PRODUCTS & SERVICES

➤ Marine Separator Spares, Lubrication & Fuel Oil Separators

Underscored by 50 years of experience, WSK International boasts a **wide range of genuine spare parts**, serving as an invaluable resource centre for fuel and lubrication oil processors.

With an ever-widening scope of supply, WSK International has earned a reputation for excellence in quality and reliability, having even been honoured with the internationally recognised **ISO 9001:2000** certification. From state-of-the-art spare parts and PHE parts, to marine and diesel separators, and service kits for a variety of Alfa Laval type machines, WSK dominates its sphere with sophisticated supplies and solutions.

➤ Ballast Water Treatment Systems

A pioneer of ballast water management systems (BWMS), Techcross' focus remains firmly fixed upon protecting marine environment, and thus facilitating a brighter future.

And, indeed, with its innovative **electrolysis technologies** (namely, Electro-Clean System) able to treat invasive marine species in ballast water, Techcross has grown into a global leader of BWMS, being the world's first maker to obtain IMO Basic Approval since the IMO Ballast Water Management Convention was adopted in 2004.
